- (b) The ratios of estimated total Hong Kong population to bank branches and ATMs in the past three years are as follows –

At the end of	Population¹	Number of persons per bank branch	Number of persons per ATM
2010	7,024,200	5,350	2,415
2011	7,071,600	5,301	2,296
2012	7,154,600	5,449	2,229

¹ Based on the population estimates of the Census and Statistics Department. Population estimates provide information on the population in Hong Kong. Population census and population by-census provide more detailed information on the geographical distribution of the population. It is an established practice for Hong Kong to conduct a population census once every ten years and a by-census in the middle of the intercensal period. The last round of population census was conducted in 2011.

The numbers of ATMs by networks in the past three years are as follows –

At the end of	JETCO Network	HSBC/HSB Network	Total
2010	1,657	1,252	2,909
2011	1,793	1,287	3,080
2012	1,937	1,273	3,210
