 Friday, June 30, 2017

The Government announced today (June 30) its financial results for the two months ended May 31, 2017.

Expenditure for the period April to May 2017 amounted to HK\$69.9 billion and revenue HK\$65.2 billion, resulting in a cumulative year-to-date deficit of HK\$4.7 billion.

A government spokesperson said that the cumulative year-to-date deficit for the period was mainly due to the fact that some major types of revenue including salaries and profits taxes are mostly received towards the end of a financial year.

The fiscal reserves stood at HK\$949 billion as at May 31, 2017.

More detailed figures are shown in Tables 1 and 2.
